ADD TO CART

• User can change models here, just like previous page, will refresh this page with appropriate list of products.

• Put the description first, then the ID. Would this benefit your users?
 • Can we put some character like a pipe between the name & ID to help differentiate?

• Initial order of this list should be appropriate for your users.
 • Sortable columns?
 • Build consistent naming into product database.

• Note: underline denotes link to detail pop-up.

Shopping Cart

- If the information is correct, click "next" to input P.O. Number, shipping method and place your order.
- To modify quantity, change number(s) under "quantity" column and click "recalculate."
- To remove item(s) from your shopping cart, check the box under the "remove" column and click "recalculate."

Current Shipping Address: REEDLY [Change shipping address for this order.](#) (Remember: your shipping address affects product availability.)

Product Description & ID	Unit Price	Order Qty	Total Price	Remove
